

## A. J. BENNETT FOR CITY JUDGE

Earlington, Ky.,  
March 20, 1913.  
Fellow Citizens of Earlington, Ky.  
I have concluded to make the race again for Police Judge, which position I have filled for the last four years. My purpose in addressing you is to ask you to exercise your vote and influence in my behalf at the Democratic Primary Election to be held August 2nd 1913. Should I be successful in the Primary Election, as the nominee, which party I have at all times regarded it as my duty to serve and have faithfully done what I could by my humble efforts, to uphold and defend its tenets, and for the success of the party. If have some hopes of receiving this nomination at the hands of the Democrats of Earlington. Nevertheless, I earnestly desire a complimentary vote from those who know me best, among whom I have lived—a people whom I greatly appreciate and for whom I have the tenderest affection. I wish to say to the public that my record as your Police Judge for the last four years is open for inspection and if there is any thing wrong in what I have done officially I humbly beg your pardon, and am willing to say that it was an error of the head and not of the heart, therefore I respectfully urge you to go to your voting places August 2nd 1913, and assist me by voting for me. It will be a gratification to me and a manifestation of your friendship, for which I will ever be grateful, when I am finally elected, as I hope to be, I promise to do nothing that will bring disgrace upon myself nor, cause a regret to those who trust and honor me. I am and always shall be, a friend to the people, of the city of Earlington.  
Thanking you for many favors of which I have been the recipient at your hands and again imploring you to assist me in gaining this honorable position. I beg to remain your fellow-townsmen and Judge  
With many thanks,  
I am yours,  
A. J. Bennett.

## TO THE VOTERS OF HOPKINS COUNTY

I desire in this manner to remind you of my candidacy for the Democratic nomination for the office of County Court Clerk before the Democratic Primary, Saturday August 2nd.

As a great many of you probably remember I served an apprenticeship of fourteen years as your deputy in this office, for which I received a very meager compensation.

I believe this service, training and experience fully qualifies me to discharge every duty pertaining to this important office with credit to both myself and to you. I believe I am the only man in the history of Hopkins County serving in this capacity for this length of time who was not rewarded by being made Chief Clerk of the County.

I have always been a loyal Democrat and the sting of political adversity has never caused me for one moment to falter in the support of my party, principals and its nominees. With the people I have tried to be the same at all times and under all circumstances.

My Campaign will be on a high plane, free from personalities and misrepresentation of my opponents, who are all nice, clever gentlemen. I am making this race on my own record and merit, and not on the demerit or the supposed demerits, of my opponents.

If you believe that my long service as a deputy, my business qualifications, my record as a Democrat and a man, entitles me to consideration at your hand, I shall be very grateful for your support.

Yours truly;

S. D. LANGLEY.

### Not a Member of the Association

The Committee that went from this city to Henderson to confer with the Managers of the Stemming District Association and ask them to accept 3 per cent of the value of a growers crop and release him from the pool, did no good, they refused to allow Bradley Wilson to talk to them as he is not a member of the Association. They also refused to release any grower from the Pool, declaring any such action on the part of the management would cause confusion. Mr. Wilson was at one time connected with the Burley People in the Blue Grass region, but has of late been owner of one of the loose floor houses in Madisonville. His trip to Henderson was fruitless.

## Madisonville Notes

The tobacco is moving some but not as much as it should. The grower and the committee cannot get together it seems.

Our Policemen are on to their jobs. No getting off the blind side of any train here with more wet goods than the law allows you. The Chief Tollie Samand, "Tige" will nab you and then Judge Wilson will get a shot at you.

W. F. Biggs, of Chicago, will entertain a large number of men and boys at the Y. M. C. A. Sunday afternoon at 2 o'clock by a lecture, "How to Live One Hundred Years." This lecture will prove very instructing and he should have a good attendance.

The opening of the stores of Barnes Coward & Co., and Mrs. M. A. Deshon Tuesday were the events of the season. All kinds, styles and shapes of hats were seen. Large crowds attended both openings and the ladies of the city were pleased with the display of Easter goods that are carried in Earlington. There is no town that is ahead of us in this line.

## LOTS OF BEAUTIFUL, GLOSSY HAIR—25 CENT "DANDERINE"

Hair Coming Out?—If dry, Brittle, Thin or your Scalp Itches and is full of Dandruff—Use "Danderine"

Within ten minutes after an application of Danderine you cannot find a single trace of Dandruff or a loose or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you will actually see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine will immediately double the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove to yourself tonight—now—that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.

## LIQUOR TRAFFIC IS A CURSE

Federal Judge in West Virginia District Makes Scathing Arraignment of Saloonkeepers.

In a charge to the grand jury of the federal court in Wheeling, Judge Alston G. Dayton of the United States court for the northern district of West Virginia delivered a scathing arraignment of the liquor traffic. Among other things he said:

It has been my experience, in the seven years I have occupied this position on the bench, that violations of the internal revenue law are ten times as many as all the other offenses against the laws of the United States put together. Why? Because, fundamentally, the sale of intoxicating liquor is not a legitimate and honest business, and no man can be an honest man who engages in it. It isn't honest to destroy a man. It isn't honest to take away the bread and butter of helpless women and children. Gentlemen, it isn't honest for any man to come into your household and take the bright, strong, vigorous son and lead him on and on until he becomes a disgrace to you, an annoyance to his fellowmen and finally lands in a drunkard's grave. And yet there isn't a single saloonkeeper's saloon in this country that does not send every year its man to a drunkard's grave, and more than that, and when dishonest men once get into a business it is the hardest thing in the world to make them stop.

I want to say that there is not a very great deal of distinction between the man, in my deliberate judgment, who stands up, and for revenue purposes, votes to license the saloon, and the man who conducts the saloon. The good Christian people who go to the polls and vote for "license" are the power behind the throne; they are the power behind the saloon, because if they did not vote for license the fellow could not run his saloon. I tell you in this country, gentlemen, the cry comes up, as it came up to Cain, the blood of our fellowmen cries out from the ground to God Almighty; the victims of this traffic, in every cemetery and every graveyard in this country cry out to God against us, you and me, who have permitted this traffic to exist so long. See to it that in this court all violations of the revenue laws are thoroughly investigated, and that, so far as we can see, we put ourselves on the side of utter and complete and absolute condemnation of the whole business, from start to finish.

## BOY'S ANSWER WAS VERY APT

Particular Brand of Whisky Was Like Bridge Because It Leads to Poorhouse and Cemetery.

A liquor dealer in the town of Ayr in Scotland, had a particular brand of whisky, which he wished to advertise. One day the circus was coming to town, and to add interest to its performances, and to advertise his whisky, he offered a prize for the best answer to the question, "Why his particular brand of whisky resembled a certain bridge across the water of Ayr?" Just over the bridge were some public institutions.

The successful competitor proved to be a poor boy, who, perhaps, knew from experience what he was speaking of, and his answer to the question, "Why the publican's whisky was like the bridge" was "Because it leads to the poorhouse, the lunatic asylum and the cemetery."

## DEPRIVED OF EDUCATION.

The following figures refer to the state of Massachusetts in 1910:

Total population of all non-license cities and towns, 1,497,722

Total number of high school pupils in all non-license cities and towns, 34,633

Number of pupils in high schools of non-license places for each 1,000 population, 23.12

Total population of all license cities and towns, 1,883,924

Total number of high school pupils in all license cities and towns, 81,707

Number of pupils in high schools of license places, for each 1,000 population, 18.52

Greater number of pupils in non-license places, for each 1,000 population, 6.29

Difference in favor of non-license, 37 per cent.

Keep the boys and girls in school by keeping out the saloon. In these days of increasing competition, your boy or girl will need the advantage that a high school training gives.

## New Slavery for China.

China, which so long has suffered from the opium curse, though free from the legal clutches of that monster, is fast coming under the rule of King Alcohol. Liquor is there characterized as "new Jesus poison," "German poison," et cetera, to distinguish it from the English poison, opium. It is reported, too, that millions of cigarettes dipped in opium have been given away by Americans to try to create an appetite among the Chinese youth for the double poison.

## Didn't Know Stone's Value.

While rummaging through an old chest Mrs. J. S. Wetzel, of Ravenswood, W. Va., came across an old stone that had been given her by a relative 27 years ago, and which she thought had no value. She showed it to a guest at her home and he took it to a jeweler, who declared it an uncut diamond worth \$1,200.

## Push Cart Fortune.

The proprietor of the finest cafe in Los Angeles formerly sold "hot tamales" from a push cart, and although he is now wealthy, he still preserves this old vehicle. In erecting a business block to house his modern restaurant he built a cupola just large enough to contain the old tamale cart, and it may be plainly seen from the street.

## Barred Hot Water.

"She threatened to throw hot water in my face," said a school attendance officer, referring to a woman who had been summoned in respect of the truancy of her child. "You must not throw hot water," the attendance officer told the defendant. "You can heap coals of fire on his head, if you like."

## HOW CHRONIC COUGHS

Are Being Cured by Vinol.

Did you ever cough for a month? Then just think how distressing it must be to have a cough hang on for three months.

Mrs. Maria Primrose, of 87 Newell Street, Brooklyn, N. Y., says: "I had a very heavy cold which settled into a chronic cough, which kept me awake nights for fully three months, and felt tired all the time because my rest was broken so much. The effect of taking your cod liver and iron remedy, Vinol, is that my cough is gone. I can now get a good night's rest, and I feel much stronger in every way."

It is the combined action of the medicinal elements, cod's livers, aided by the blood-making and strength-creating properties of tonic iron which makes Vinol so efficient in curing chronic coughs, colds and bronchitis—at the same time building up the weakened, run-down system.

Try a bottle of Vinol, with the understanding that your money will be returned if it does not help you.

## Signs Missing.

"Why do you want your money back?" asked the man at the box office. "You're operating under false pretenses here. This isn't a real vaudeville show. I noticed that three of the performers sang songs in which there was no mention of love in connection with the stars above."

## Whitelaw Reid to Newspaper Men.

Whitelaw Reid, in a speech some years ago at a literary dinner, delivered himself of a maxim which he suggested should be hung up in every newspaper office in the world. It was: "Fewer words, shorter stories, better told." And all the newspaper men present raised a cheer.

## SLOGAN IS "ONE FOR EVERY ONE"

Cheerful Cry Adopted in Rowan County in 1911.

## JEANETTE BELL ORIGINATOR

Practiced What She Preached on Poor Girl Who Got Behind in Her Studies on Account of Practical Blindness. Work Has Not Stopped, Either.

Last winter, when the enthusiasm of the moonlight school campaign was at its height in Rowan county, Miss Jeanette Bell, an official stenographer, decided to adopt and carry out the slogan, "One for every one." She looked about her in Moorehead, the county seat, for some person who was out of school and could not read or write. In the hotel in which she was living she discovered a pupil, Cordie Wilson, who was working as a chambermaid. When asked about the work she had done for Cordie Wilson, Miss Bell smiled quietly and said: "It wasn't work at all. It was a pleasure, and a very real pleasure too. You see, Cordie was born in Elliott county, and when she was quite young she was almost blind. Of course she did not go to school with

CORDIE WILSON.

the other children, and when her eyes grew better she felt shy about going to school with children so much her junior. This was somewhat accentuated by the fact that she was one of those unfortunate overgrown girls that look almost twice their real age. Today, at fifteen, Cordie looks like seventeen or eighteen.

"At night when her work about the hotel was done she would come to me with her books and pencil and pad and work like a Turk. Naturally I expected it to take her some time to learn to write and read, but in six nights she could write her name easily and knew how to join all her letters into words. In this same time she had also learned to read well enough to cover the first twenty pages in her first reader. Soon after this she left the hotel and did not come to me any more."

Every vital human movement easily becomes both religious and contagious, and the moonlight school seems to prove the rule. Other counties and communities are taking up the work, and it is hoped that the whole state will realize the value of a school for out of school folks.

In 1911 Rowan county decided to strive to get a number of her schools to open their doors for adults who could not read or write. Grown people do not care for a primer or a first reader, so Rowan county launched a paper, THE ROWAN COUNTY SCHOOL MESSENGER, that the pupils might have a real live paper to read. The first column of the paper, dated Sept. 16, 1912, is as follows:

Can we win?  
Win what?  
Win the first night school prize.  
Of course we can. Just watch us try. And watch us WIN!

We are winners, we are!

Watch us grow. Grow what?

Everything but weeds.

Our district shall win!

Our division must lead!

Let's all go to school. It is good for us. It will make us young again. It will make us more useful. It may start us on the road to greatness.

All night schools in Rowan county started on Monday evening, Sept. 16.

Each will try to have the largest number enrolled, the best attendance each night and the largest graduating class; also each will try to have the oldest pupil.

Rowan county has the finest building stone in the world.

Rowan county will grow the finest fruit in the world.

## ATTITUDE OF THE W. C. T. U.

A statement of the non-partisan attitude of the Woman's Christian Temperance union was made before the Portland convention by Lillian M. N. Stevens, national president, which is as follows:

The Woman's Christian Temperance union is neither a sectarian nor a partisan organization. Each member is free to choose her own church and her own party. While the Woman's Christian Temperance union women, in some of the northern states, have been using their influence for the election of Republican candidates who stood for state-wide prohibition on a prohibition platform, the W. C. T. U. of some of the southern states, have by the same token, worked for the election of Democratic candidates. A careful study of the national platform reveals that only one party recognizes the evils of the liquor traffic, and declares that it should be destroyed. While some white ribboners still have hope that the old national parties, and the new national party, will redeem themselves from the onus of favoring the mighty vested interests of the liquor traffic, having a combined capital of a thousand million dollars, others regard the national prohibition party as the party which is to lead the people out of the wilderness of strong drink.

## DRINKING MEN NOT WANTED

Official Refuses Man Who Would Steal to Frequenter of Saloons—Cause of Accidents.

We would sooner have a man in the land's employ take money than that he should indulge in intoxicants. The damage that would result from stealing would be trifling compared with the trouble which might result from a conductor, or an engineer, or even a brakeman, partaking too freely of stimulants.—An Official of the New York Central Railroad.

The American Railroad association's standard code has a rule which reads as follows: "The use of intoxicants by employees while on duty is prohibited. Their use or the frequenting of places where they are sold is sufficient cause for dismissal." "I believe that eighty per cent of the accidents to trains, equipment and employees in the train and yard service of the railroads of this country are directly or indirectly traceable to the violations of this rule.—Mr. Mitchell, Chief Agent of the Railroad Terminals Association of St. Louis.

## EXPOSE OF MODERN SCIENCE

Many Aroused by Discovery That Alcohol Is Life Destroyer—Attitude of Scientists.

The discovery of science that alcohol is a life destroyer, is arousing many who heretofore have been uninterested in the temperance problem. Mr. Francis C. Benedict of the Carnegie Institute, after an extended tour in Europe visiting nearly all of the important physiological laboratories, writes that he was continually impressed with the temperance attitude of notable scientists; and Mr. Benedict further says:

"When these men whose whole life is engaged in the problem of preserving life, preventive medicine, and patient scientific research, find that they are infinitely better off without alcohol than with it their evidence must be carefully weighed for what is good for a psychiatrist in the University of Munich, a physiologist in the University of Helsingfors, a chemist in the University of Lyons, and a chemist in the Imperial Military Academy of St. Petersburg, is certainly good for all."

## DRINK HABIT FALLING AWAY

People of Los Angeles Awakening to Fact That Liquor Is Harmful—No Sign of Increase.

The secretary of the Los Angeles Liquor Board, and one of the oldest wholesale liquor dealers in Los Angeles is authorized for the statement that people do not drink as they used to do. He says: "The population of Los Angeles four or five years ago was in the neighborhood of 200,000. It has been more than doubled today. Were conditions now as they used to be there should be a marked increase in the liquor traffic. There has not been a sign of increase. The only logical conclusion for this is that people are awakening to the fact that too much liquor is harmful."

## Alcohol Treasons.

Sir Frederick Treves, surgeon of King Edward of England, speaking of alcohol as a work-producer, says: "I was with the relief column that moved on to Ladysmith in the South African war, and of course it was an exceedingly trying time. In that enormous column of thirty thousand men, the first who dropped out were not the tall men or the short men, or the big men or the little men, they were the drinkers, and they dropped out as fast as if they had been labeled with a big letter in their back."

## THE BEST PROOF

Earlington Citizens Cannot Doubt It

Doan's Kidneys Pills were used—They brought benefit.

The story was told to Earlington residents. Time has strengthened the evidence.

Has proven the result lasting. The testimony is from this locality. The proof convincing.

J. H. Thompson, plumber, Princeton, Ky., says: "I am thoroughly convinced that there is no other remedy as good for disordered kidneys as Doan's Kidney Pills. I was troubled for five years with backache and other annoying symptoms of kidney complaint. During the early part of the winter when the cold weather set in, I was sure to have an attack of lame back that made it impossible for me to work for days at a time. I tried many remedies but got no relief. It was just about a year that I was laid up when a friend advised me to try Doan's Kidney Pills. I got a box and began taking them and in two days was back to work, feeling better in every way. I do not have backache now and my health has been greatly improved."

The above statement was given February 6, 1908 and when Mr. Thompson was interviewed on Feb. 8, 1912 he added: "I am glad to confirm the public statement I gave four years ago, praising Doan's Kidney Pills. Whenever I have occasion to use this remedy, I have been greatly benefitted."

For sale by all dealers. Price 5 c. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

## Sum of Duty.

Do naught to other which, if done to thee, would cause thee pain; this is the sum of duty.—Mahabharata.

## Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

### Where "Yiddish" Comes From.

The Hebrews who live in Germany speak the German language, using among themselves a peculiar dialect called "Yiddish," that term being itself a corrupt form of the German word Yidisch. Russian Hebrews also use this language, while by a curious chain of historic events Turkish Hebrews speak Spanish. Printed Yiddish shows an interesting combination of languages, the words being essentially German, but printed in Hebrew characters.—Christian Herald.

### To the Point.

The world is so closely akin that no individual may realize his high position except all the world share it with him. Every good thought you put out is a silent power working for peace, health, love, joy, success to all humanity—including yourself.—Elizabeth Towne.

Children are much more likely to contract the contagious diseases when they have colds. Whooping cough, diphtheria, scarlet fever and consumption are diseases that are often contracted when the child has a cold. That is why all medical authorities say beware of colds. For the quick cure of colds you will find nothing better than Chamberlain's Cough Remedy. It can always be depended upon and is pleasant and safe to take. For sale by All Dealers.

### Natural Question.

"I am so very fond of music," said Miss Kittish, as she swung herself round on the piano stool and faced Mr. Harkins, after thrumming away for half an hour for his entertainment. "Ah!" replied the young gentleman thoughtlessly. "Why don't you take lessons?"—Stray Stories.

**Asbestos.**  
Asbestos is a mineral of a fine fibrous character, the fibers being easily separated, elastic, flexible, and of a whitish-gray color. It is composed chiefly of silica, lime, magnesia, and oxide of iron. The ancients converted it into a kind of cloth, in which they wrapped the bodies of their dead, while preparing them for the funeral pile; the cloth being indestructible by fire, enabled them to preserve the ashes. Asbestos is found more abundantly in Corsica than in any other locality.

A tight feeling in the chest accompanied by a short, dry cough, indicates an inflamed condition in the lungs. To relieve it buy the dollar size BALLARD'S HOREHOUND SYRUP; you get with each bottle a free HERRICK'S RED PEPPER POROUS PLASTER for the chest. The syrup relaxes the tightness and the plaster draws out the inflammation. It is an ideal combination for curing colds settled in the lungs. Sold by St. Bernard Mining Co., Incorporated Drug Department.

### Eyeglasses and Steam.

Wearers of eyeglasses are greatly troubled with the steam caused by the heat of the eye. This may be prevented by rubbing the glasses with soap daily. They may be polished bright after application, but an invisible film is retained which will prevent the deposit of moisture.

"Thou Madest Me for Thyself." O thou God Omnipotent, who so carest for every one of us, as if thou carest for him alone; and so for all, as if all were but one! To thee will I intrust whatsoever I have received from thee. So shall I lose nothing. Thou madest me for thyself, and my heart is restless until it repose in thee. Amen.—St. Augustine.

## FREE ADVICE TO SICK WOMEN

Thousands Have Been Helped By Common Sense Suggestions.

Women suffering from any form of female ills are invited to communicate promptly with the woman's private correspondence department of the Lydia E. Pinkham Medicine Co., Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence. A woman can freely talk of her private illness to a woman; thus has been established a confidential correspondence which has extended over many years and which has never been broken. Never have they published a testimonial or used a letter without the written consent of the writer, and never has the Company allowed these confidential letters to get out of their possession, as the hundreds of thousands of them in their files will attest.

Out of the vast volume of experience which they have to draw from, it is more than possible that they possess the very knowledge needed in your case. Nothing is asked in return except your good will, and their advice has helped thousands. Surely any woman, rich or poor, should be glad to take advantage of this generous offer of assistance. Address Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass.

Every woman ought to have Lydia E. Pinkham's 80-page Text Book. It is not a book for general distribution, as it is too expensive. It is free and only obtainable by mail. Write for it today.

### Not Likely.

"I wish you would shout at me, just the same as you shout at the animals you are going to kill," said Judge Moss, at the Carnarvon (Wales) county court, to a butcher who was giving evidence in quiet tones. "If you were going to kill an obstreperous bull you would not whisper like this," added his honor.

### Piles Cured in 6 to 14 Days

Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Bleeding or Protruding Piles in 6 to 14 days. The first application gives Ease and Rest. See.

### Peppercorn Rent.

Mr. Staveley Hill, M. P., was at Rushbury paid a peppercorn as rent. The berry was placed in an envelope and handed to Mr. Staveley Hill during a visit he paid to the old village school. In handing over the receipt, he remarked that he was probably the only man in England who received such a payment in kind.—London Telegram.

You judge a man not by what he promises to do, but by what he has done. That is the only true test. Chamberlain's Cough Remedy judges by this standard and has no superior. People everywhere speak of it in the highest terms of praise. For sale by All Dealers.

### Happiness.

Those who have the most of happiness think the least about it. But in thinking about and in doing their duty happiness comes—because the heart and mind are occupied with earnest thought that touches at a thousand points the beautiful and sublime realities of the universe.—Thackeray.

## POULTRY RAISING WORTH WHILE?

Kentucky's Fowls in 1910 Valued at \$4,461,871.

## SOME INTERESTING LETTERS

Organization of Children's Corn and Poultry Clubs is Doing a Whole Lot For the Commonwealth—"Education Must Be More Than Books."

Moorefield, Ky., Jan. 17, 1913.

Mr. James Speed, Louisville, Ky.: Dear Sir—In answer to your letter regarding the poultry contest I will endeavor to tell you how I became a prize winner.

First, I gave my county superintendent my name and told her I wanted to enter the Poultry Club. The next thing I had to get two settings of eggs of fifteen each from pure bred chickens.

Out of the thirty eggs I hatched twenty-six chicks. I then put them in a place to themselves. Out of the twenty-six I raised fifteen chickens. They were Barred Plymouth Rocks, Ringneck strain.

When it came time for the fair I selected two and took them to the fair. The reason I have not answered your letter before was because I could not get my picture. Yours sincerely,

MARY D. THOMPSON.

Ewing, Ky., Jan. 2, 1913.

Mr. James Speed, Louisville, Ky.: Dear Sir—Your letter of recent date received. As it was directed to Carlisle, I was delayed in receiving it. You wish to know something about our Poultry club. We are not yet thoroughly organized, but if you can meet with us in March, 1913, you can learn more about it.

Last year we gave our names and addresses to our county superintendent, Miss Lida Gardine. There were four girls from each of the four divisions of the county. Last year we bought our own eggs. Next year we hope to have them furnished from some place in order to bring new stock into the county.

We live on a farm, so my chicks were not much trouble. Mother raises Plymouth Rocks; I had Buff Orpingtons. I kept the chicks free from lice; fed them twice each day until fall, when I fed corn and cane seed. They were with the hen, had a large range and grew fast.

We had our exhibit in the courthouse the 14th of December with corn and tobacco. Besides these, there were various kinds of school work.

I cannot send you photo, as I have no late picture, now since I was nine years old. I forgot to say the girls were to be twelve and over. A prize of \$250 was awarded in each division.

I shall inclose a clipping from our county paper. Hoping this will help you in preparing your newspaper work and thanking you for the interest you have taken, respectfully,

THELMA SAMFSON.

"Just a woman's job raising chickens"—how often have you heard that remark! But the figures at the head of this article are from the government reports for the year 1910 and are approximately correct and show that it is a big proposition. No wonder the school people who have been pushing corn and potato clubs should use poultry clubs to interest the girls in light and pleasant work that means dollars and cents in their pockets.

In corn clubs one of the slogans has been "pure bred seed," and in the girls' poultry clubs it is "pure bred fowls."

MARY D. THOMPSON, AGED TWELVE YEARS.

Nothing can be done with poor stock or poor seed. Everything is possible with pedigreed stock and seed.

All of this has been written time and time again in farm papers and the rural press, but when children begin to work definitely in this direction something is sure to happen. Grown people are slow to take up new things or things that are fairly new, but children simply absorb and use them.

If you have had a successful boys' corn club in your county, why not try to organize a small poultry club for the girls? If you do, be certain to insist upon the rearing of only fowls of pure blood. It will mean that the girls will have an absorbing occupation that adults can watch with great advantage.

EDUCATION MUST BE MORE THAN BOOKS IF THE CHILD IS TO BE A REAL SUCCESS IN LIFE.

### Tired Fields.

No farmer would think of working his horse continuously. He gives him Sunday off and at times says: "I think I'd better let old Bill run out to grass for a right smart spell. He don't look just right the last few days."

Does this same farmer watch his fields as carefully as he does his horse? Does he know the looks of a tired field as well? Does he turn his tired field out "to rest for a spell?"

If a horse is thin he is rested and fed carefully. If a field is thin and tired it, too, must be rested and fed with clover, cowpeas or barnyard manure.

**ALL YOU NEED IS A  
CASCARET TONIGHT**

No Headache, Sour Stomach, Biliousness  
or Constipation by Morning

Turn the rascals out—the head-  
ache, the biliousness, the indi-  
gestion, the sick, sour stomach  
and foul gases—turn them out  
tonight and keep them out with  
Cascarets.

Millions of men and women  
take a Cascaret now and then  
and never know the misery caused  
by a lazy liver, clogged bow-  
els or an upset stomach.

Don't put in another day of  
distress. Let Cascarets cleanse  
and regulate your stomach; re-  
move the sour, undigested and  
fermenting food and that misery-  
making gas; take the excess bile  
from your liver and carry out of  
the system all the constipated  
waste matter and poison in the  
intestines and bowels. Then you  
will feel great.

A Cascaret tonight will surely  
straighten you out by morning.  
They work while you sleep. A  
10 cent box from any drug store  
means a clear head, sweet stom-  
ach and clean, healthy liver and  
bowel action for months. Child-  
ren love to take Cascarets be-  
cause they taste good—never  
gripe or sicken.

Mixed.

"And how is Rogers getting on? He  
always declared that he would leave  
footprints in the sands of time."  
"Yes, but unfortunately he got stuck  
in the mud."

"Had dyspepsia or indigestion for years. No  
appetite, and what I did eat distressed me ter-  
ribly. Burdock Blood Bitters reached the  
cause."—J. H. Walker, Sanbury, Ohio.
